Work Experience

DekaBank Deutsche Girozentrale

Working Student – Capital Markets

Frankfurt, Germany

August 2025 – Present

- Completed front-office rotation (Hospitation) across Swaps, Structuring, Bond Sales, Agency Lending and FX desks, gaining direct trading floor and client-facing exposure.
- Built structuring model for IP-backed security issuance, designing royalty cash flow waterfall and covenant frameworks for alternative asset distribution.
- Developed client profitability framework for Agency Lending desk, analyzing revenue attribution across securities lending portfolio to identify high-value relationships.
- Contributed to multi-bank consortium strategy, creating institutional use cases and distribution approach for €400B+ AUM network.

Flowistic GmbH

Working Student – Investment Technology

Frankfurt, Germany

January 2025 – July 2025

- Built Python-based portfolio analytics tools for institutional clients, reducing manual processing time by 40%.
- Engineered a financial analytics platform for institutional clients to evaluate dividend yield, growth trends, forecasting and sustainability.

Bank For International Settlements (BIS) – (UZH Academic Collaboration)

Research Project Contributor

Basel, Switzerland

Jun 2023 – Sep 2023

- Authored the economic model and revenue framework for a privacy-preserving Central Bank Digital Currency (CBDC) prototype, focusing on a viable business model.
- Presented financial architecture to senior executives at Swiss National Bank and Bank for International Settlements.

Central Bank of Pakistan (SBP)

Financial Analyst Intern

Karachi, Pakistan

Aug 2022 – Oct 2022

- Performed regulatory risk analysis on 20+ commercial banks using the CAMELS framework to assess liquidity (SLR/CRR) and capital adequacy.
- Identified and helped remediate data integrity issues in regulatory reporting, contributing to a 20% reduction in reporting inaccuracies.
