Work Experience

DekaBank Deutsche Girozentrale

Working Student – Capital Markets & Digital Assets

Frankfurt, Germany

August 2025 – Present

- Contributed to **Qivalis** stablecoin consortium's commercial stream, developing institutional distribution strategy and creating use cases for €400B+ AUM Sparkassen network.
- Designed on-ramp/off-ramp smart contract framework linking real-time payment rails to blockchain settlement, presenting architecture to consortium partners and internal stakeholders.
- Built tokenization strategy for an Intellectual Property (IP) backed Music Rights security issuance, structuring royalty cash flow and other covenant frameworks for alternative asset distribution to institutional investors.
- Completed front-office rotation across FX, Swaps, Structuring and Bond Sales desks, gaining trading floor operations exposure.

Flowistic GmbH

Working Student – FinTech Technology

Frankfurt, Germany

January 2025 – July 2025

- Built Python-based portfolio analytics tool on ESG reporting for institutional clients, reducing manual processing time by 40%.
- Managed B2B sales pipeline and authored technical proposals, contributing to 3 new client acquisitions.
- Organized fintech investor events (150+ attendees), coordinating logistics and stakeholder communications.

Bank For International Settlements (BIS) – (UZH Academic Collaboration)

Research Project Contributor

Basel, Switzerland

Jun 2023 – Sep 2023

- ✎ Authored the economic model and revenue framework for a privacy-preserving Central Bank Digital Currency (CBDC) prototype, focusing on a viable business model.
- ✎ Presented the technical architecture and economic model to senior executives at the Swiss National Bank (SNB) and BIS.

Central Bank of Pakistan (SBP)

Financial Analyst Intern

Karachi, Pakistan

Aug 2022 – Oct 2022

- ✎ Performed regulatory risk analysis on 20+ commercial banks using the CAMELS framework to assess liquidity (SLR/CRR) and capital adequacy.
- ✎ Identified and helped remediate data integrity issues in regulatory reporting, contributing to a 20% reduction in reporting inaccuracies.
